will explore the challenges we face in Ventura County as we struggle to balance our need to promote and support a healthy economic climate with our desire to maintain our high quality of life.

The conference will focus on SOLUTIONS—how to find that balance. Our keynote speakers and panelists will provide business owners and managers, community leaders, decision makers, and residents with a forward-looking view of current trends, strategies, and their own perspectives on how to not only survive, but also to thrive, given the growth-control policies of Ventura County and our cities.
